The 7-Day Kickstart Guide

The exact starter protocol Kendra Washington gives every new 1:1 client. Seven days of workouts, a sample meal plan, and the simple rules that make week one feel doable.

How to use this guide: Read it once start to finish. Pick a start date in the next 7 days. Tell one person you trust. Then begin. You don't need to be perfect — you just need to start.

The 3 Starter Rules

1. **Protein first.** Aim for 30g of protein at each main meal. Eggs, Greek yogurt, chicken, fish, cottage cheese, lean beef, tofu — any of these work.
2. **Move every day.** Four strength sessions, three walks. Walks count. A walk after dinner is not optional — it's the easiest way to control blood sugar and stress.
3. **Sleep is training.** 7 hours minimum. Phone out of the bedroom. No exceptions for week one.

The 7-Day Training Plan

Day 1 · Lower body strength

Squats 3×10, Romanian deadlifts 3×10, glute bridges 3×12, walking lunges 2×10 each leg. 25 minutes.

Day 2 · Walk + mobility

30-minute walk outside. 10 minutes of hip openers, shoulder rolls, and cat-cow.

Day 3 · Upper body strength

Dumbbell rows 3×10, push-ups (knees ok) 3×8–12, shoulder press 3×10, bicep curls 2×12. 25 minutes.

Day 4 · Active rest

30-minute walk. Long shower. Stretch hamstrings and chest for 5 minutes.

Day 5 · Full body strength

Goblet squats 3×10, dumbbell deadlifts 3×10, dumbbell press 3×10, plank 3×30 sec. 30 minutes.

Day 6 · Long walk + reflect

45–60 minute walk. Phone on do-not-disturb. Notice what's changed.

Day 7 · Rest & plan

Real rest day. Plan groceries for next week. Write down what you learned about your body in 7 days.

Sample Meal Day

Meal	What	Why
Breakfast	3 eggs, 1 cup spinach, 1 slice sprouted toast, coffee	30g protein, real food, fast
Snack	Greek yogurt + berries	Protein + fiber
Lunch	Grilled chicken, mixed greens, olive oil, sweet potato	Lean protein, complex carbs
Snack	Apple + 2 tbsp almond butter	Fiber + healthy fat
Dinner	Salmon, roasted broccoli, quinoa	Omega-3, fiber, satiating

What to Track

- **Did I move today?** (Yes/No)
- **Did I hit my protein at each meal?** (Yes/No)
- **Sleep hours.** (Number)
- **Energy 1–10.** (Number)

That's it. Don't weigh yourself this week. Pay attention to energy, mood, and how clothes fit.
