Home Workout — No Equipment Needed

Twelve bodyweight movements that build real strength. Three 25-minute circuits you can do in your living room, hotel room, or backyard. No gym, no excuses.

How it works: Each circuit is 5 rounds. Do all movements in order, rest 60 seconds between rounds. Stop a round short if form breaks. Form is everything.

The 12 Movements

Movement	Cue
Air Squat	Knees track over toes, sit back into hips, chest up.
Reverse Lunge	Step back, drop knee toward floor, drive through front heel.
Glute Bridge	Heels down, ribs down, squeeze glutes 1-second at top.
Single-Leg Glute Bridge	One leg straight, drive other heel through floor.
Push-Up (knees OK)	Elbows at 45 degrees, body in straight line.
Incline Push-Up (hands on couch)	Easier variation. Same form.
Bird-Dog	Opposite arm + leg, hold 2 seconds, no hip rocking.
Dead Bug	Lower back glued to floor, slow control.
Plank	Straight line, ribs down, breathe.
Side Plank	Hip lifted, body in straight line.
Step-Up (chair / stair)	Drive through heel, don't bounce off back foot.
Wall Sit	Thighs parallel to floor, breathe.

Circuit A — Lower Body Focus
